PRODUCT OVERVIEW

The Mini Vu is a great basic system that gets you inspecting almost anywhere in a matter of seconds! Simply slide in an M18 Battery, plug in a USB flash Drive and you are ready to go. Know your distance in the pipe with the On-Screen Distance Counter. One press of a button and you are recording. You can also take pictures and videos by pairing your Android or Apple device using the Mini Vu App and WiFi.

FEATURES AND BENEFITS

Wi-Fi Streaming to Apple or Android

View, record, snapshot and share inspection videos.

One Touch Recording

Record videos during inspection.

On-Screen Footage Counter

View the distance pushed and displayed on screen.

Tough RAM™ Case & Mount

You can view the Mini Vu from almost anywhere.

M18 Style Battery Powered

Go almost anywhere and inspect up to 6 hours.

Built-in Always On 512Hz Sonde

Transmits a 512hz signal locatable with a 512hz locator.

ACCESSORIES INCLUDED WITH THE SYSTEM

OPTIONAL ADD ONS

MiniVu Full Size Reel Self-Leveling Camera Head

WiFi Video Streaming App

Now you can stream wireless video of your inspection to your Android or IOS device up to 100 feet away from the Mini Vu system. Record video, remote recording to USB, take snapshots, playback, and email your inspections to your customers via an App available on Google Play and Apple stores.
